

**District Highway Safety
Guidance Manual**

Comprehensive Table of Contents

August, 2014

District Highway Safety Guidance Manual

CHAPTER 1 – INTRODUCTION

- 1.1 Introduction
- 1.2 Purpose and Objective
- 1.3 Scope and Intended Audience
- 1.4 Overview of the Crash Data System
- 1.5 Vision, Goals, and Mission
 - 1.5.1 Vision
 - 1.5.2 Goals
 - 1.5.3 Mission
- 1.6 Federal Safety Requirements — MAP-21
 - 1.6.1 Highway Safety Improvement Program Provisions
 - 1.6.2 Driver Behavior Safety Programs
- 1.7 State Safety Requirements
- 1.8 Funding
- 1.9 Resource Documents
 - 1.9.1 State Documents
 - 1.9.2 Federal and National Documents
- 1.10 Procedures for Modifications or Additions to this Document

CHAPTER 2 – PLANS, PROGRAMS, AND ACTIVITIES

- 2.1 Introduction
- 2.2 Strategic Highway Safety Plan Implementation
 - 2.2.1 Vision
 - 2.2.2 Goals
 - 2.2.3 Mission
- 2.3 The Highway Safety Improvement Program (HSIP)
- 2.4 Commercial Vehicle Safety Plan (CVSP)
- 2.5 Section 402, Pennsylvania Highway Safety Grant Program (HSGP)
- 2.6 District Safety Plans

- 2.7 Section 130 Grade Crossing Program
- 2.8 Safe Routes to School Program
- 2.9 Safety Activities in Improving Safe Driver Behavior
- 2.10 Safety Activities for Pedestrians and Bicyclists
- 2.11 Highway Safety Activities on Local Roads
- 2.12 Highway Safety Activities on State Highways
- 2.13 Plan and Reporting Summaries
 - 2.13.1 Plan Preparation Summaries
 - 2.13.2 Reporting Summaries

CHAPTER 3 – SAFETY-RELATED FUNCTIONS

- 3.1 Overview of District Safety-Related Functions
- 3.2 Safety in the Design Development Function
 - 3.2.1 Incorporating Safety into Resurfacing, Restoration, and Rehabilitation Projects
- 3.3 Safety in Maintenance Operations
- 3.4 Safety in Utility Pole Permitting Processes
- 3.5 Safety in Risk Management
 - 3.5.1 Risk Identification
 - 3.5.2 Risk Mitigation
- 3.6 Safety in Promoting Safe Travel Practices
 - 3.6.1 Aggressive Driving
 - 3.6.2 Alcohol & Drugs - Driving Under the Influence
 - 3.6.3 Seatbelts
 - 3.6.4 Truck Safety
 - 3.6.5 Pedestrian Safety
 - 3.6.6 Work Zone Safety
 - 3.6.7 Motorcycle Safety
 - 3.6.8 Railroad Safety
 - 3.6.9 School Bus Safety
- 3.7 Primary Functions of the District Highway Safety Engineer
- 3.8 Primary Functions of the District Safety Press Officer

- 3.9 Primary Functions of the District Bicycle/Pedestrian Coordinator

CHAPTER 4 – CRASH DATA

- 4.1 Introduction
- 4.2 Crash Record System (CRS)
- 4.3 Crash Data Analysis and Retrieval Tool (CDART)
- 4.4 Fatal Analysis Reporting System (FARS)
- 4.5 Accessing Crash Data and Information
- 4.6 Location of Crashes
- 4.7 The Cost of Crashes
- 4.8 Key Crash Attributes Used in Safety Analyses
 - 4.8.1 Average Crash Cost
 - 4.8.2 Fatalities per 100 Crashes
- 4.9 Concentrations of Crash Locations
- 4.10 Requests for Crash Data
 - 4.10.1 Public Requests
 - 4.10.2 Media Requests
 - 4.10.3 Safety-Related Study or Research Requests
 - 4.10.4 Legal Action Requests (Subpoenas/Lawsuits)
 - 4.10.5 Right to Know Law (RTKL) Requests
 - 4.10.6 Summary

CHAPTER 5 – STUDIES AND COUNTERMEASURES

- 5.1 Introduction
- 5.2 Crash Analysis and Safety Impact Evaluation
 - 5.2.1 Background
 - 5.2.2 Crash Analysis and Safety Impacts Evaluation
 - 5.2.3 Crash Rate Analysis
- 5.3 Safety Studies
 - 5.2.1 Overview
 - 5.2.2 Area-Wide Safety Studies

- 5.2.3 Corridor Safety Studies
- 5.2.4 High-Crash Location Studies
- 5.2.5 Systematic Studies and Process for Low-Cost Improvements
- 5.2.6 Road Safety Assessments
- 5.3 Methods to Identify Cost-Effective Improvements
- 5.4 Major Crash Types and Safety Countermeasures
 - 5.4.1 Aggressive Driving – Segments
 - 5.4.2 Aggressive Driving – Intersections
 - 5.4.3 Signalized Intersection Crashes
 - 5.4.4 Stop Control Intersection Crashes
 - 5.4.5 Curve Crashes
 - 5.4.6 Tree Crashes
 - 5.4.7 Utility Pole Crashes
 - 5.4.8 Guide Rail Crashes
 - 5.4.9 Head-On Crashes
 - 5.4.10 Rear-End Crashes
 - 5.4.11 Wet Pavement Crashes
 - 5.4.12 Run-Off-Road Crashes
 - 5.4.13 Unbelted Injury and Fatal Crashes
 - 5.4.14 Alcohol-Related Crashes
 - 5.4.15 Mature Driver Safety
 - 5.4.16 Motorcycle Safety
 - 5.4.17 Pedestrian Crashes

CHAPTER 6 – OTHER SAFETY TOPICS

- 6.1 Overview of Other District Safety Topics
- 6.2 Provisions for Detours for Bicyclists and Pedestrians During Construction Projects
- 6.3 Provisions for Sidewalk Installations
- 6.4 Car-Bicycle Share the Road Signs
- 6.5 Bicycle PA Route Sign Inspection Schedule
- 6.6 Bicycles on Freeway Application Process

- 6.6.1 Application and Response Process
- 6.6.2 Application Evaluation Criteria
- 6.6.3 Other Considerations
- 6.6.4 Bicycle Signs – Justifications
- 6.7 Safety and Work Zone Traffic Control Policy for Traffic Counting Operations
 - 6.7.1 General
 - 6.7.2 Vehicle
 - 6.7.3 Personal Protection Equipment and Attire
 - 6.7.4 Work Zone Safety and Signing
 - 6.7.5 Additional Safety Precautions
 - 6.7.6 PennDOT Traffic Counter Training
- 6.8 Roadside Memorials
- 6.9 Bystander Care
- 6.10 Mountable Curb Median Retention During Resurfacing Improvements
- 6.11 Full Width Pavement Markings on High-Speed Highways

APPENDIX A – DISTRICT SAFETY PLAN GUIDELINES AUGUST 2014

- A.1 Purpose
- A.2 District Safety Planning Process and Timeline
- A.3 District Highway Safety Champion
- A.4 District Safety Plan Project Guidance
 - A.4.1 Safety Projects
- A.5 Safety Press Officer Guidance
- A.6 Non-Compliant Rumble Strips
- A.7 District Strategic Highway Safety Plans
- A.8 District Safety Plan Template
- A.9 Evaluation of Projects and Annual Federal Reporting
- A.10 Network Resource Links

**APPENDIX B – YIELD TO PEDESTRIAN CHANNELIZING DEVICES
PEDESTRIAN SAFETY PROGRAM**

- B.1 Overview
- B.2 Program Conditions
- B.3 Determining Potential Locations
 - B.3.1 Method #1 – Pedestrian Crash Locations
 - B.3.2 Method #2 –Special Requests
- B.4 Completing the Application Process
- B.5 Forms

APPENDIX C – CRASH DATA RESOURCES

- C.1 Standard Police Accident Report
- C.2 Crash Record System (CRS) Data Elements
- C.3 Location Priority Listing (LPL)
 - C.3.1 Combined LPL List
 - C.3.2 Intersection Location Priority Report
 - C.3.3 Homogeneous Report
- C.4 Sample Data – Systematic Deployments
 - C.4.1 Output Formats – Area-Wide and Segment/Intersection-Based Deployments

APPENDIX D – STUDIES AND COUNTERMEASURES RESOURCES

- D.1 Model Work Plan for Aggressive Driving, Impaired Driving, and Unbelted Injuries and Deaths
 - D.1.1 Background
 - D.1.2 Goals
 - D.1.3 Recommended Approach
- D.2 Crash Data to Support the Model Work Program for Aggressive Driving, Impaired Driving, and Unbelted Injuries and Deaths
 - D.2.1 Background
 - D.2.2 Goal
 - D.2.3 Recommended Approach

- D.3 Guidelines for Pilot Installation of Pennsylvania Intersection Warning Treatment
 - D.3.1 Preparatory Work
 - D.3.2 Guidelines for Selecting Treatment Locations
 - D.3.3 Other

APPENDIX E – CRASH CHARACTERISTICS

- E.1 Overview
- E.2 Aggressive Driving – Segments
- E.3 Aggressive Driving – Intersections
- E.4 Unbelted Injury and Fatal Crashes
- E.5 Alcohol-Related Crashes
- E.6 Pedestrian Crashes
- E.7 Signalized Intersection Crashes
- E.8 Stop Control Intersection Crashes
- E.9 Curve Crashes
- E.10 Tree Crashes
- E.11 Utility Pole Crashes
- E.12 Guide Rail Crashes
- E.13 Head-On Crashes
- E.14 Rear-End Crashes
- E.15 Wet Pavement Crashes
- E.16 Run-Off-Road Crashes
